

Longfellow Middle School How to Register for Classes in StudentVue

Log into StudentVue and follow the steps below. Only courses on the “Course Code” sheet are available at Longfellow Middle School. Please use the course codes on the sheet to select your courses.

The screenshot shows the StudentVue interface for course selection. On the left is a navigation menu with 'Course Request' circled in red and labeled '1'. A blue arrow points from a text box to this menu item. The main area is titled 'COURSE REQUEST SELECTION' and contains a yellow box with school information: 'Longfellow Middle School (703-533-2600) 2022-2023 School Year, Grade: 08', labeled '2'. Below this is a table of 'Selected Course Requests' with one row for 'Learning Seminar 1' (Course ID 000111) and a 'Total' row. A 'Search Courses' section below has a search input field containing '923210', labeled '3'. Below the search field are two buttons: '+ Add Request' (labeled '4') and '* Add Alternate' (labeled '5'). A blue arrow points from a text box to the '* Add Alternate' button. The text box contains instructions for typing course codes and using the 'Add Alternate' button for electives.

Click “Course Request” to begin selecting courses.

Type the code for your math class. As you type the code, the course will appear on the list. When you know it is the right course click “Add Request”.

Type the code for between 2-4 electives. Click “Add Request” for each course.

Type the code and click “Add Alternate” for 4 elective courses

Always type the course code, when searching for a course. DO NOT search by entering a course title or you might be adding the wrong course.
